# FAQ's

## Good to Know

---

### **Do I need to hold onto my passport during the safari?**

Yes, you need to bring your passport for the fly-in safari. You need this when checking in at the airport.

### **Will water and food be provided during the safari?**

Water bottles and a bush lunch will be provided during the safari.

### **What are the luggage restrictions?**

You are allowed to bring 15 kg with you. When you book a safari including one or several nights in one of our accommodations, please note that your luggage will be brought to the lodge upon arrival, while you will start your safari adventure. For this reason, please make sure you have all the essentials for your safari with you.

### **What meals will be provided?**

During the bush lunch, food will be served buffet-style, with vegetarian options available. Please inform us of any specific dietary requirements or allergies. If you have booked a safari with an overnight stay you will enjoy a full board, or all-inclusive meal plan (depending on the accommodation you are staying in).

*Bush Lunch*

### **Do you require travel insurance?**

Yes, travel insurance is recommended to cover any unexpected medical expenses, trip cancellations, or lost luggage.

### **What is your cancellation policy?**

Yes, we do have a cancellation policy:

- Cancellations 31 days or more before arrival, no charge is charged.
- Cancellations between 30 days & 15 days before arrival, 50% of the total costs will be charged.
- Cancellations between 14 days or less before arrival, 100% of the full costs will be charged.
- No-shows will be charged at the total costs.

In case you need more information, please reach out to our customer service team.

### **Do you offer refunds?**

There are only some cases whereby we will provide a refund, and that is in case of force majeure, for example when our planes cannot fly due to weather conditions. We cannot give any refunds outside the cancellation policy, this is because all the costs we had to make to arrange your safari (things like flights, park fees, and so on). We thank you kindly for your understanding.

### **What payment methods do you accept?**

You can pay via bank transfer or at the airport. We prefer not to receive cash.

### **What are the timings for the safari?**

Our flight schedule is always on time, unless there are unforeseen circumstances such as weather conditions. In case of any flight changes, we will let you know beforehand.

### **Tell us about your Safari Jeeps.**

In Southern Tanzania, we use open safari jeeps, allowing you to experience wildlife and nature up close. In Northern Tanzania, we have closed safari jeeps.

### **Tell us about your driver-guides**

Our driver guides are well knowledgeable about the flora and fauna of Tanzania. In Mikumi and Selous, we have driver-guides who speak multiple languages (German, French, English) which we can offer free of charge. In the Northern Circuit, there is a surcharge for this.

### **In case of emergency, how do you protect your clients?**

As a tour company, it is our duty to ensure you are safe during your safari, from beginning to end. We protect our clients.

### **What should I pack for my safari adventure?**

Stick to neutral or khaki colors and avoid wearing dark blue or black clothes as these colours tend to attract tsetse flies. Wide-brimmed hats, sunglasses, sunscreen, and insect repellent are a necessity. Leave bright-white items at home; safari parks are often dusty, and white clothes may get dingy. Loose and comfortable dresses are advised; short ones are also cool if you prefer.

### **What should I expect on the safari?**

A safari is an incredible and unforgettable experience. You will explore the wonders of nature up close. Since it is nature and not a zoo, we cannot guarantee what you will see during your safari, as every day is different and brings its own magic. However, with Now Safari as your tour operator, you can expect quality service from beginning to end. We are the operator throughout the entire tour, ensuring a seamless and memorable experience.

### **Can I bring water on the airplane?**

Yes, you can bring water on the airplane as long as it does not exceed 100 ML.

### **What kind of camera can I bring?**

You can bring amateur or individual film cameras, as well as images or videos captured with a personal camera or mobile device. GoPro cameras that are meant for private usage only are also allowed. Please keep in mind that you will need a permit for professional cameras and drone usage.

### **What are the temperatures in Southern and Northern Tanzania (during the day and night)?**

Southern Tanzania: During the day, temperatures in Southern Tanzania can range from 25°C to 30°C (77°F to 86°F), making it pleasantly warm for safari activities. At night, temperatures can drop to around 15°C to 20°C (59°F to 68°F), so it's advisable to bring a light jacket or sweater for the evenings and early mornings.

Northern Tanzania: In Northern Tanzania, temperatures during the day range from 20°C to 25°C (68°F to 77°F), providing comfortable conditions for safari adventures. Nights can be cooler, with temperatures dropping to 10°C to 15°C (50°F to 59°F), so it's recommended to pack layers to stay warm during early morning game drives and evening activities.

### **What is the difference between a shared and a private safari?**

This brochure will show you prices for shared and private safaris. During a shared safari, the safari vehicle will be shared with 8 guests. If you book a private safari, you will have your own safari vehicle and driver-guide.

Due to the park's expansive nature, it is highly recommended to spend several days exploring. Serengeti National Park spans 14,763 square kilometers and is the largest and arguably the most popular of the Northern Circuit National Parks. The Serengeti hosts the annual Wildebeest migration when approximately six million hooves pound the open plains. More than 200,000 zebras and 300,000 Thomson's gazelles join the wildebeests in their trek for fresh grazing. Buffalo, elephants, giraffes, lions, hippos, and hyenas are also frequently sighted throughout the Serengeti.
