

# Africa Safari Lake Natron

## Relaxing in African style

Africa Safari Lake Natron, situated on the edge of Lake Natron, is a safari lodge offering easy access to the Northern Circuit national parks and reserves. Here you will find a dramatic lava desert terrain, together with a high alkaline lake in a depression created by the Rift Valley.

The grounds are spacious and offer a variety of accommodation options, ranging from simple Safari tents to the ultimate in Glamping luxury.

The Safari tents are simple and offer the same beautiful views of the mineral-rich 'soda' lake that sometimes turns a mesmerising pinkish-red. Safari Comfort bungalows are large and comfortable, with air-conditioning, brick walls, a concrete floor and a permanent ensuite bathroom. The air-conditioned Luxury Glamping tents are built on a raised wooden deck and feature a beautiful rustic wooden interior.

The swimming pool, with sunbeds and umbrellas, offers a beautiful view of the neighbouring Mount Ol Doinyo Lengai, a still active, unique and intriguing volcano. The perfect spot for relaxing, sunbathing and taking in the magnificent scenery.

The reception, restaurant and bar area are elevated, making this the perfect vantage point from which to take in the lake, the striding giraffes, galloping zebras and, of course, the volcano.

**Sometimes the mineral-rich waters turn a spellbinding pinkish-red, creating a landscape of unparalleled beauty.**

## TAWA Game Controlled Area and CBO fee

By paying the WMA fee, guests have access to the Lake Natron Game Controlled Area, which surrounds our camp. The village of Engaresero has a CBO (Community Based Organisation) which manages all the activities and provides Maasai guides to accompany you on all your excursions. These Maasai guides have extensive knowledge of the area and are very pleasant company.

### TAWA's WMA fee, per person per night

	Non-citizen & Residents (USD)	Tanzanian Citizen (Tanzanian Shillings)
Aged 18 years and Above	\$29.50	8.260 TSH
Aged 5-17 years	\$23.60	7.080 TSH
Aged below 5 years	\$0.00	0 TSH
CBO fee Activities per person	\$20.00	\$20.00

## Ol Doi Lengai, The Mountain of God

"Ol Doi Lengai" means "The Mountain of God" in the Maasai language. The top of this volcano lies 2962 metres above sea level and offers a direct view into the caldera of Tanzania's only officially recognised active volcano. It has erupted twice this century and is known for its unique low- temperature carbonatite lava.

A moonlit night climb to the top of the famous "Mountain of God" is an unforgettable and mystical experience, but also one of the most challenging 1-day climbs in East Africa!

This trip is not for the faint-hearted or inexperienced, but it is worth it for the unrivalled views from the top at sunrise.

On a clear day, you can see the peaks of Mt. Meru and Mt. Kilimanjaro pierce the horizon to the east. To the north, you can see as far as the tip of Lake Natron, where the shores border Kenya. In the west, you can see the slope of the Sale Plains to the Gol Mountains, a view so spectacular that it does not seem real!

## Activities

### FLAMINGO LAKE WALK

Lake Natron in the Rift Valley is the preferred mating ground of the endangered Lesser flamingo. Depending on the water levels, the guided walk may depart from the camp, or we may need to travel to a different section of the lake. The flamingos normally lay their eggs at the end of the dry season in September and October, and hatching reaches its peak in December. It is an amazing sight when the grey chicks are strong enough to be led to fresh water by their parents.

### FOOTPRINTS OF HUMANOIDS

The Engaresero Footprint Site, located on the south side of Lake Natron, 13 km from Africa Safari Lake Natron, is said to contain the best preserved fossilised human footprints in the world. The more than 400 footprints form the largest group of footprints found in Africa, are between 5.000 and 19.000 years old, and came to the attention of scientists in 2008.

### NGARE SERO WATERFALL

The moderate one-hour walk leads to a series of narrow gorges and waterfalls of the Ngare Sero River. Hiking, light rock climbing, and wading through the river (sometimes up to your thighs) take you to a magical place where you can swim in the slot canyons, take a refreshing shower under the waterfall or just enjoy the view. You will be accompanied by a Maasai guide from the local cultural centre. This is a refreshing activity on a hot day at Lake Natron.

### OL DOINYO LENGAI ASCENT

One hour before midnight, your driver will take you to the foot of Ol Doinyo Lengai to start the ascent at midnight. The duration of the climb and descent combined is 7-9 hours. You will be accompanied by a Maasai from the local cultural centre. Before you start this trip, you should understand that it is a tough and challenging climb.

### WALK THROUGH THE VILLAGE OF ENGARESERO

Take a guided walk through the village of Engaresero (6 km from the camp) and meet Maasai men, elders, warriors, women with their beadwork and their children. You will learn about Maasai pastoralism and their pride, culture and traditions.

# Safari Jeep

A four-wheel drive safari jeep with a pop-up roof, including driver and fuel, is available for hire on request. Our driver guides are very knowledgeable and will ensure you have as much time as you need to ask questions, take pictures and enjoy the incredible landscape.

## DEVELOPMENTS

All the main roads in the area are now maintained by Tanroads. Between Mto wa Mbu (Lake Manyara) and Klein's gate, there are plans to construct an asphalt road to make travel for Tanzanians and tourists more comfortable. (almost 50 km has already been completed). TANESCO (Tanzania's electricity company) is also working on improving the electricity network, by constructing power lines between the 2 destinations.
